

# CONSTRUCTION IMMERSION WOMEN IN TRADES

This FREE 4 day program is designed to assist female school students in gaining exposure to multiple construction pathways including carpentry, wall & ceiling lining, painting & decorating, tiling and digital printing media.

CITB are funding the course and TAFE SA will be delivering the program at their Tonsley campus at differing times throughout 2024.

This is a non-accredited training course, however students will receive their White Card ticket during the program (mandatory safety induction, usually \$140).

Participants must wear long sleeves, trousers and steel-capped boots. All other PPE will be provided by TAFE SA.

Please register your interest in this program with your VET teacher/ future pathways advisor. Registration forms will then be sent via email from Born to Build coordinator Amanda Hewer.
