

# Supported Learning Centre Disability Unit Factsheet

**HENLEY  
HIGH SCHOOL**

Diversity is an asset. Our Supported Learning Centre Disability Unit is committed to creating a learning environment that values and supports every student on their educational journey.

Designed for students from Year 7-12, Henley High School's Supported Learning Centre Disability Unit provides an inclusive educational environment that recognises diverse learning needs. With a focus on celebrating and building upon individual strengths and abilities and grounded in the principles of equity and accessibility, our Disability Unit is dedicated to ensuring every student has the opportunity to thrive academically and personally.

## Curriculum

Our aim is to offer students a diverse curriculum that meets the individual needs and interests of all students, preparing them for an independent life beyond school.

Students participate in a number of core subjects in Year 7 to Year 12 as well as a range of elective subjects each semester with the aim of maintaining a balanced curriculum.

Within the Supported Learning Centre, students will have the opportunity to:

- Develop skills in Literacy, Numeracy and ICT
- Develop skills in emotional literacy and regulation
- Develop skills in independent living

- Develop skills in community access
- Be supported in transitioning to post school pathways
- Participate in an engaging and inclusive learning environment.

These learning areas are mapped against the SACE Modified. Students will have the opportunity to complete their SACE Modified Certificate.

## Enrolment

Placement in the Supported Learning Centre is decided by personnel from the Department for Education in a process external to the school. The placement panel considers information from Department for Education psychologists, speech pathologists, private psychologists, medical professionals, and other relevant agencies.

## More information
